

Dear Parents/Guardians,

The 5th grade team has provided a selection of activities that cover all subjects. Students are expected to complete one activity from the attached sheets for each day that we are not in school. (This does not include Saturday and Sunday.)

This work is mandatory and will count toward the fourth marking period final grade for each subject. Students will be required to turn this work in to their homeroom teacher within one week of school reopening.

In addition to the packet given, children will have a few assignments in their Google classroom which will need to be completed and a few Flocabulary lessons that will need to be completed.

Children can also utilize the websites which we use in class for daily practice. The websites I suggest are the following: XtraMath, Read Theory, Zearn, Freckle, Prodigy

If at any time you have questions or concerns, please message me via text or through my work email. I will be checking both at least once daily during our time out.

Thank you for all you do. I look forward to when we can be back at school learning and working together.

Thank you,

Ms. Gardner
